About Me

I am a developer with more than 1 year of Front-end Development experience. I have an intermediate level of knowledge in basic technologies like HTML, CSS, JavaScript and ReactJS. My goal is to improve user experience and create impressive web applications. I want to gain more experience in the field of Front-end Development and continue to improve myself by doing projects. I am always ready to collaborate and learn.

Projects

Portfolio Website
Aug 2023 - Present

Github:
https://github.com/mertokan/Portfolio-v1.0

The website with information about me. ReactJs, ViteJS, Tailwind CSS were used on the site.

First MERN App
Nov 2023 - Dec 2023

Github:
https://github.com/mertokan/First-MERN

I have created a full-stack website for the first time. While working on this project, my goal was to learn MongoDB, Express, and Node.js.

Shop App
Oct 2023 - Oct 2023

Github:
https://github.com/mertokan/Shop-App

It's a small shop app I made using Strapi and Supabase.

Entertainment Web App
Dec 2023 - Dec 2023

Github:
https://github.com/mertokan/entertainment-web-app

A web application I made to do some filtering more smoothly. I used NextUi for some TailwindCSS configurations. Design by frontendmentor.io.

Space Tourism Website
Dec 2023 - Dec 2023

Github:
https://github.com/mertokan/space-tourism-website

This website is an outcome of a 24 hour challenge. I'm using NextUi for some Tailwind CSS configurations. Designed by Frontendmentor.io

Weather App
Sep 2023 - Sep 2023

Github:
https://github.com/mertokan/weather-app

I made a weather application that can draw api with axios.

ATB Website
Aug 2023 - Oct 2023

Github:
https://github.com/mertokan/atb

A project I made for my friends. A site where the group is introduced and applications are received. It is actively used. NextJs, Tailwind CSS were used on the site.
